

Reimagining the Future of Global Health Initiatives

This short survey will inform the study '**Reimagining the Future of Global Health Initiatives**,' which is part of a wider multi-stakeholder process (<https://wellcome.org/what-we-do/our-work/future-global-health-initiatives-process>), exploring how Global

Health Initiatives - such as the Global Fund, Gavi, and the Global Financing Facility - can more effectively accelerate country-led progress towards universal health coverage. The process aims to make the GHI ecosystem more efficient, effective and equitable and catalyse collective action to ensure it is fit for purpose through to 2030 and beyond. The research phase will produce a vision of what the GHI ecosystem should look like in 15 to 20 years, and concrete recommendations on the changes needed to make this vision a reality.

The study is conducted by a Consortium of Universities: University of Geneva (Switzerland), Queen Margaret University (Scotland), Cheikh Anta Diop (Sénégal), Stellenbosch University (South Africa), and Aga Khan University (Pakistan).

The University of Geneva has granted ethics approval for the purpose of this survey.

For more details, please contact Dr Rosemary James (study coordinator) at rosemary.james@unige.ch (<mailto:rosemary.james@unige.ch>).

Thank you for taking the time to complete this survey. It should take around 15 minutes to complete. Please answer in as much detail as possible and give concrete examples where possible. Bullet points are fine.

The study is focused on six major GHIs (below), as well as the wider global health ecosystem.

- Global Fund to Fight AIDS, TB, and Malaria (GFATM)
- Gavi, the Vaccine Alliance
- Global Financing Facility for Women, Children, and Adolescents (GFF)
- Unitaid
- Foundation for Innovative New Diagnostics (FIND)
- Coalition for Epidemic Preparedness Innovations (CEPI)

Please focus your responses on the above GHIs.

All responses are anonymized, unless you decide to share your email address for further contact.

This survey will close on June 4th at midnight CET.

There are 13 questions in this survey.

Reimagining the Future of Global Health Initiatives: Key Informant Survey

1. What type of respondent are you? *

🗳 Check all that apply

🗳 Please select from 1 to 6 answers.

Please choose **all** that apply:

☐ Academic

☐ Global Health Initiative

☐ Bilateral development partner

☐ Multilateral development partner

☐ Civil Society Organization

☐ Other:

2. What is your gender?

❶ Check all that apply

Please choose **all** that apply:

☐ Male

☐ Female

☐ Prefer not to say

3. What is your country of origin?

Please write your answer here:

4. In the context of an evolving global health landscape and disease burden, changes may be required to adapt the GHI ecosystem to future needs. In your opinion, what changes are needed to ensure it remains relevant and fit for purpose over the next 15-20 years?

Please write your answer here:

5. Can you describe any strengths and achievements of recent efforts to strengthen GHIs effectiveness in supporting county health systems?

Please write your answer here:

6. How can GHIs better support countries to strengthen their health systems (HSS) and provide universal health coverage (UHC)?

Please write your answer here:

7. Which of these options regarding GHIs should be prioritized to address future health needs (over a 15 to 20-year horizon)? (Please check all that apply):

❗ Comment only when you choose an answer.

❗ Please select from 1 to 6 answers.

❗ If you choose 'Other (please explain)' please also specify your choice in the accompanying text field.

Please choose all that apply and provide a comment:

☐ Strengthening existing GHIs (i.e., improving ways of working, expanding remits, etc.)

☐ Creation of new GHIs (i.e., to address other health needs not currently addressed by the existing GHIs)

☐ Merging of GHI(s)

☐ Phasing out GHI(s)

☐ No changes are required

☐ Other (please explain)

8. What needs to be done to incentivize GHIs to evolve and make changes?

Please write your answer here:

9. If changes are needed, who do you think should oversee and monitor these changes?

Please write your answer here:

10. What changes are most important at country level, between country implementers and GHIs, to improve the effectiveness of GHIs?

Please write your answer here:

11. How should the success of the GHI ecosystem best be *measured* over the next 15-20 years? Please provide examples of possible indicators.

Please write your answer here:

Please provide your email address if you are happy to be contacted for follow-up questions:

Please write your answer here:

Please feel free to add any other comments or reflections here. You may also add links to any relevant documents or resources.

Please write your answer here:

Thank you for your time. For any queries, please contact rosemary.james@unige.ch.
